Career Objective

Motivated B.Tech Cyber Security student with hands-on experience in SOC operations, SIEM, and Splunk. Reported security issues to platforms like YouTube, Spotify, and Netflix. Seeking an entry-level SOC Analyst / SOC Intern role to contribute to threat detection, monitoring, and incident response while learning from experienced security teams.

Key Skills

- SOC & Monitoring: SIEM, Splunk, Wazuh/ELK basics
- Security Tools: Wireshark, Suricata, Burp Suite, Nmap, Nikto, HTTPX
- Networking: TCP/IP, DNS, HTTP/HTTPS, basic firewall concepts
- OS & Platforms: Linux (Parrot/Kali basics), Windows
- Scripting & Automation: Python (basic), Bash (basic)
- Other: Log analysis, incident investigation basics, report writing

Education

B.Tech in Cyber Security
Poornima College of Engineering
Expected Graduation: 2027

Practical Experience & Projects

- Bug Reporting (Responsible Disclosure) — Reported security issues/bugs to major platforms including YouTube, Spotify, and Netflix.
- CTF & Hands-on Labs — Solved TryHackMe / HTB style labs focusing on enumeration, exploitation, and privilege escalation.
- SOC Monitoring Lab (Personal Project) — Set up a small lab using Splunk, Wazuh/ELK to collect logs, create basic detection rules, and simulate alerts.
- Web Vulnerability Testing — Performed OWASP Top 10 testing on intentionally vulnerable labs using Burp Suite and manual testing techniques.

Achievements & Activities

- Active participant in cybersecurity communities and CTF events.
- Regularly post write-ups and learnings.
- Self-driven learner: follow online courses, YouTube tutorials, and hands-on practice daily.

Certifications (In Progress)

Currently no formal certifications. Exploring TryHackMe paths and online courses.

Additional Information

Languages: Hindi (Native), English (Professional working proficiency)
Willing to relocate / internship-ready
